

Workshop

The Feminine Fire in each of us: awareness and empowerment

Sabrina Leone, PhD, medium and researcher
Giovanni Biancofiore, healing musician and sound explorer

Wednesday 21 – Sunday 25 August 2019
at Bärghuis Jochpass, Engelberg, Switzerland

This workshop is aimed at men and women who feel their creative energy pulsating, feel a thrust to express, but also feel something that holds them, blocks, impediments that result in impediments to thinking, impediments of movement, even physical, to act.

The action starts from a vibrational state of release. It is the release of energies that, in reality, leads to action, to produce, to create, to co-create.

This workshop, therefore, wants to transfer the concept of feminine energy as a creative, inspiring energy, of renewal, of change, of breaking old patterns. It is the same energy that we all have and that is in the energy, in the spirit of the Earth, with which it is necessary that humanity rejoins in this moment of marvelous evolution.

This occurs through breath, meditation and sound. The exercises we will carry out will lead to an understanding of who we really are and to the harmonization of our vibrational state, a rebalancing of the part of female energy and the understanding of its expression, through the perception of one's emotional states, the feeling of the Self.

Individual and group mediumistic communications will be part of the activities to support each participant's spiritual growth path.

Accommodation

Accommodation and all workshop activities will be at Bärghuis Jochpass (Jochpass 2222 CH-6390 Engelberg, Switzerland). The Bärghuis Jochpass is located at 2222 meters above sea level, beneath the peak of the glacier Titlis, in the primal surroundings of one of Central Switzerland's most beautiful regions. This Alpine lodge is deep in untamed nature and silence, and is the point of departure for countless adventures into this fabulous Alpine world.

You will stay in a double or quadruple room (single rooms are not available), which will be assigned in the order of arrival of the bookings. The rooms are all with bathroom and equipped with every comfort. They have a charming Alpine feel and a spectacular view of the Alpine landscape.

The Bärghuis Jochpass offers more cozy places to relax and enjoy your stay, such as the lounge, the sauna, and a panoramic terrace. In the Säumerstube (mule drivers' room), with its panoramic windows and fireplace, or in the Alpgenossenstube (Alp cooperative members' room), you can taste delicious meals, which are prepared with many ingredients from the region, and enjoy choice of wines. The large deck now extends all the way around the Stübli, offering great views in every direction. The staff is always friendly, cheerful, and passionate in accommodating the guests.

Further information is available at the link <http://www.jochpass.ch/en>

Meals

It's simply fabulous what the region around Jochpass has to offer, and that goes for the food, too. At the Bärghuis Jochpass, they buy all fresh produce from local farmers and, with these ingredients, they create their own soups, salad variations, and traditional dishes.

The price includes buffet genuine Swiss breakfast (Thursday, Friday, Saturday, and Sunday), featuring Alpine cheese, muesli, freshly baked bread and many other tasty local products, and four-course exclusively vegetarian dinner (Wednesday, Thursday, Friday, and Saturday).

Lunches (Thursday, Friday, and Saturday) are not included, but you can take advantage of the delicious dishes of the restaurant.

It aims to investigate the unlimited potential of human beings and disseminate research results, in order to contribute to the evolution of mankind and to perform any acts relating or potentially conducive to the foregoing.

The foundation Lovefrequencies is passionately engaged in achieving these goals by exploring the unlimited by frontier research, disseminating knowledge, creating awareness, and engaging and facilitating empowerment.

You can contribute to the growth of Stichting Lovefrequencies in several ways, including research, donations, sponsorship, and voluntary work.

We are collaborating with many wonderful and inspired people from all over the world and from different backgrounds, in a multidisciplinary exchange, with the common aim of disseminating

sound research findings and developing awareness. Please feel free to contact us if you'd like to join our vibrant community.

Giovanni Biancofiore, healing musician and sound explorer

Giovanni has always been fond of music, and he has studied and played several instruments over time, mainly the drums and percussions. His personal spiritual journey, which he started many years ago, and scientific research have led him to the study of the interaction between sound frequencies and healing by melding synthesisers to acoustic instruments. Thus, he approached sound design. He has conceived the Silent Healing Experience®, an exciting and captivating sound journey he has created by combining the use of analog synthesisers, hybrid synthesisers, pedal effects and real-time effects processor/sampler.

Once he had reconnected to his talents, Giovanni chose to make them available to others, take the best from his background, and co-found the foundation Stichting Lovefrequencies, a wonderful and joyful project.

His music is available at the link www.lovefrequencies.org/giovannibiancofiore. He has practised meditation and mantra singing daily for years.

Information and communication technologies, networks, and eLearning characterised his previous professional path; indeed, he is a Microsoft Certified System Administrator and a learning technologist, specialised in eLearning platforms. He has co-authored several scientific publications and has worked in multicultural environments.

Sabrina Leone, medium and researcher

Sabrina is a healing medium, a researcher (www.lovefrequencies.org/sabrinaleone), and co-founder and secretary-treasurer of the foundation Stichting Lovefrequencies. Communication is one of the gifts she has received to achieve her existential aim. Mediumship and research are a passion which she considers a privilege. For her entire life, her scientific background has intertwined with the spiritual science naturally.

Indeed, along her versatile career she has been strongly engaged in change, innovation, and learning. She has always believed in each individual's powerful potential to contribute to common well-being, and so in the need to facilitate self-awareness, empowerment, and joy. For this reason, one of her very first achievements has been being able to inject her positive energy into others and inspire them.

More and more, she has acknowledged and accessed her power, she has lived in the flow, with the aim of working with people and for people, to find out more and share more about being.

Over time, she has taken on positions of great responsibility and trust that have allowed her and others to grow: a teacher for more than 30 years for thousands of learners of all ages; a representative of the Italian Ministry of Foreign Affairs at the University of Wollongong, Australia, to promote the Italian language and culture in the area; an educational consultant and coordinator of technological and learning innovation for large educational institutions; a quality manager for an international engineering company; a successful candidate of the selection procedure for Researchers in Human and Social Sciences of the European Commission and the Joint Research Centre; a European Commission independent expert for research and innovation assignments (evaluation of proposals, review of projects and monitoring of programs or policies); designer and coordinator of many breakthrough research projects.

Sabrina is a lifelong learner and an amazed traveler, and she loves their feeling of expansion. Besides tapping into her talents in sports, art, and creativity in general, she received a Master degree in English and French Language and Literature, a Master Degree in Business Management, a Degree in Sciences of Linguistic Mediation, and a PhD in eLearning. She has authored and co-authored numerous scientific publications and has worked in multicultural environments, in Italy and abroad.

In the 1980s, she began her spiritual path with the study of Oriental philosophy, meditation, and yoga, becoming a certified trainer. Also, for years, she has been involved in the study of Tarot as a metaphorical language to provide insight into our essence and our spiritual path.

She regularly explores and develops her mediumship at the Arthur Findlay College, Stansted (UK). Her journey has been a learning adventure, full of amazing teachers, experiences, and emotions.

Working with her mediumship has become a major part of her life. Besides being a choice of her personal path, mediumship has expanded her vision as a researcher. While she has a strong research interest in lifelong learning, eLearning, open learning-research-education, personalized learning, and change management, her current research focus is on mediumship and the mind-brain relationship, as a result of the development of her mediumistic abilities.
